MISCELLANEOUS,

BUTE INLET

Waggon Road Co., (LIMITEP.)

Enregistered, 2d January, 1863. NOMINAL CAPITAL, \$60,000, with power to increase to \$220,000.

HE OBJECT OF THIS COMPANY) carry out a conditional Charter granten to Watdlington of Victoria, and conveying: a right of levying toll for ten years from and to completion of the first 44 index of road, droad to be completed by the end off][564; e, which is 35 miles long, forming part of constanting. he communication.

3. The toll not to exceed 3 cents per pound or coods, \$2 per head on large cattle, and \$1 on shee

goods, 52 per near or read or read or read or read swine.

4. A right to take up ten parcels of land of ten acres each around ten different stations on the road with a recaission of their improved value in case o

rate.

5 The reimbursement of duties on any steam machinery for navigation beyond the mountains.

N. B.—The road passes through a defile in the Cascade Mountains, which renders it totally imposible to evade the toll.

The proposed town-site at the Head of the Intels situated on a large flat of 1220 serves or more any Cascade Mountains, which renders it totally impossible to evade the toll.

The proposed town-site at the Head of the Inlet is situated on a dry flat of 1200 acres or more, and water Irontage 20 teed deep, and accessible for vessels drawing under 12 teet, and an outer harbor where ships of any burden can unload in safety.

The main features in favor of the Bute Inlet Route are: Its shortness—125 miles of land travel to Switt River, against a distance of 255% miles to Alexandria by the Douglas Route, and 295 miles by Yale; the length of Inland navigable waters—116 miles; the beingth of Inland navigable waters—116 miles; the beingth of Juland navigable waters—116 miles; the beingth of Juland lavigable waters—116 miles; the beingth of Juland lavigable waters—116 miles; the bis-ence of all mountains, or even eminences worth mentioning; the first half of the road is an apparently dead level; the comparatively small number of loadings and infloading—5 against It on twannys; the comparative influences of the climate, and the boundless grazing tracts; the lacility of awaying in from Victoria. B5 auxiliar and is not investigated to harbors.

Twenty-three miles of road from the Head of the nelt were opened last statement.

A moderate number of Shares are still ndisposed of, and may be obtained by ap

olying at the office of the Company, corner of Langley and Fort streets. For the Relief of Contrabands. Sire to preserve your health, a knowledge of the laws for its preservation is essential. If you are ill, and have sought in vain for renewed health, waat is the reason? Simply this, a want information on the subject. The civilisation of the presert day renders some aid to nature in the preservation and restoration of health indispensably necessary; and the only question is, whence is the required help to be obtained? Undoubtedly, by using

Kaye's Worsdell's Vegetable Restora tive Pills.

For the last thirty years the truth has been gaining ground that to purify the blood is the simplest and most natural way of restoring and maintaining health; and the great and distinguishing fenture of these celebrated pills is, that they speedily eradicate all disease from the body, by purifying the blood; thus good health is at once secured, and all may ensure a sound constitution and complete freedom from pain and disease.

The pamphlet enclosed with each box of the pills gives most interesting particulars of many hundreds of cases of cure, together with instructions for the use of the medicine. TRY OND BOX OF KAYE'S WORSDELL'S PILLS,

AND JUDGE BY THE RESULT. Prepared solely by JOHN KAYE, Esq., Prospect Hall, Woodford, Essex. Sold in Victoria, V. I. Notice to Hotel

RESURRECTION OF THE CROAK-Since the Press was smothered out of existence, we have not heard a great deal of croaking about the future of our free-port nor the injury that free trade is doing to the Colony. But yesterday, possibly owing to the purpose was made. There is no reason why the mercury falling in our local cotemporary's brainometer, we had a genuine croak. The resurrection of the defunct Press dependent for their letters and papers, upon the was complete. It reminded us of a poor chance arrival of coasting vessels. There is no devil without a cent in the world and with no prospect of getting one, but who was determined to make others as miserable as Limself if possible. Our cotemporary evidently had a fit of hypochondria-a genuine fit of the blues-without sense enough to dian to rub it against the grain with a horsehair brush, to excite a healthy circulation, in order to make a sensible use of the modicum to settlers taking up their residence in the of wit that it possesses. It sunk so low in backwoods is the fact of their being so isolcreaking yesterday-in running down the city ated from the rest of their kind. If we can and colony—that nothing but a few blisters by any means lessen this feeling of isolation are likely to restore it to its normal condi- then we may expect to see our agricultural BLACKSMITHING ESTABLISHMENT, tion. Some people had it that an old leader districts more rapidly populated. If men of the Press had been revamped and served Ap: others that a leader cooked at New Westminster by the talented literati of as much ease as if they were in Victoria, or that ambitious Village had found its way into the wrong sanctum sanctorum. Subsequently, however, these suppositions were of removing fifty or a hundred miles along partially dispelled by a meteorologist who the coast to a good farm, This assurance accounted for the croaking by the sudden then Government are in duty bound to give change in the weather. As soon as this and see that it is a fact. plausible discovery was known, there were a great many fervent wishes made for fine

weather, lest our townspeople should be again afflicted with a cronking newspaper. After intimating enough to show the diagnosis of the disease with which our cotemporary is afflicted, it may not be inappropriate to notice more exactly its intellectual abertation. The first back-handed slap this city gets is as follows: "When we lose what little control over British Columbia which we now possess though the Governor of this Island. and left to work along by ourselves, we shall be a very snall affair indeed! A new Daniel has certainly come to judgment. We are a wiped-out community by the Chronicle's anticipation, except that institution commences to peddle a petition to keep Governor Douglas forever here. That A. FANCY BAZAAR new Governor for British Columbia, with that everlasting and continually reiterated "colonial experience," of which we have heard so much about in our cotemporary's columns, sails." What a monster he will be-not even leaving us a breath of air-the lightest zephyr. Our readers need not be the least alarmed, Our cotemporary is a little "luny"-just a little more than common. But, to enlighten it, let us state that the Delegate par excellence rites out that Gov. Douglas is to be offered the Governorship of the sister colony for two years to come. So our condition is not half so dangerous as the Chronicle made it appear, inasmuch as it charged him and his surroundings a short time ago as being without the unction of "colonial experience." Our modern Daniel next drops the startling words We have our doubts about the free port being perpetuated any great length of time "moreover this free system is not such an advantage to us after all;" "a tariff by-and-by; and "the people of British Columbia are going to tog the trade by Victoria." What a hard tug they will have of it! They will accomplish it about the time our cotemporary gets rid of the hob-goblins raised by its nightmare Again, our cotemporary predicts that this colony is doomed. If we stand alone, it says, we are to become nobody—a mere gecgraphical dot, and if we unite with British Columbia we shall lose our "prestige," and our free port will bear the same relation to New Westminster that the gull-egg islands, called the Farralaones do to San Francisco." To be serious, we have not read such twaddle as our cotemporary's Delivered Free of Extra Charge croaking yesterday for a long time. We recommend it to secure an extra pair of scissors to substitute "clippings" for the raporings of a hypochondriac. Soberly, the public cannot afford to keep newspapers t croak against their city, like a poor devil with the nightmare, fighting phantoms. There is just about as much chance of a new Governor for British Columbia injuring our trade, as there is of our cotemporary being

struck by lightning. Mail Communication with Comax. Nearly a month has now elapsed since tenders were called for by the Postal Department for the conveyance of the mails beween Comax and the intermediate points between it and Victoria. The service was required to be performed fortnightly, and by steam vessel, which was to mence the contract to day. However, we understand, nothing has yet been done, owing we believe to the fact of there having been aly one for made for the duty to be performed, and that at too high a figure to be accepted. The whole sum voted by the Legislature for service during the year was \$1500, which one would think is quite sufficient for mail carriage on the route in question. We are informed, however, that the tender sent in for the work would absorb the whole of the sum in three or four months. Such being the case, it seems likely that the idea of having the mails carried between here and Comax, by water, will, for the pres-ent, have to be abandoned. Considering that the service advertised for was only a fortnightly one, it is perhaps just as well that no engagement has been entered into fer steam carriage. However satisfactory t might be to have steamers running to the settlements, along the coast, we cannot see that the Government would be justified in endeavoring to effect that object by a heavy subsidy ; more copecially as the proposed mail service was not what it should have been. The Govern ment have now only to turn to some other mode of conveying the mail bags. Among the most feasible, and at the same time the most certain that present themselves, is that by land. The trail between here and Nanaimo is now about completed; all that remains to be done we believe is to construct a couple of bridges. When these are finished, the distance between these two points may he made on horseback in a very short time.

A few weeks more will also see the comple-

tion of the trail between Nanaimo and the

Comex settlement, that is with the exception

perhaps of some bridges over the rivers. As soon as the line is cut through, a man will no doubt be able easily to ride the whole dis-

tance betwen Victoria and the most northerly settlements, some 130 miles, and carry a mail bag at the same time. There would then be no difficulty in having a weekly communication. There would also be the advantage of the postman being able to touch at settlements as well as those on the coast. This is the way in which mail arriage is affected in all the interior puttions of Eastern America lying off the lines of railways and stage routes. It is there found to work very well, and at the same time to be economical. It is not probable that the slightest difficulty would be expeneatly executed. Terms, cash on delivery of the ienced in effecting a contract for the cariage of the mails in the manner we have just alluded to, for a sum within the amount allowed by the Legislature for the service. The Government should therefore make no delay in providing for the extension of mail communication with the settlements along the coast. There has been quite enough of time lost already since the appropriation for the people of Nancimo and the different got-

> doubt that both the settlement, and the trade promoted were postal matters placed upon a more satisfactory basis regarding them. At present the settlers are often in want they have an opportunity of making their re-To Farmers, Teamsters, and Others quirements known to our merchants and traders here. One of the greatest drawbacks EVANS BROS. & CO. can be assured that they will be able to communicate with their friends abroad with that they will be able to receive their regular weekly paper, why they will think nothing Done with special care and regard to the comfort of the animal.

FILLING UP THE RAVINE .- The action of certain property holders in filling in a por-Council. Notifying the said property holders that they must construct a culvert before proceeding with their undertaking, was the ourse suggested at the first meeting by one Councillor, though the others doubted their right to interfere with private property. A report was read on Monday evening from the City Surveyor which stated, though in an engineering point of view the ravine and the natural water-course therethrough could never advantageously be made available for never auvantageously be made avanche for any portion of the city sewerage, it was at the same time "absolutely necessary" to keep the channel free from obstruction until some portion of the main drainage of the city be completed, so as to find a new channel for the water which now has an outlet through the water which now has an outer through the ravine. As the opinion of the City Surveyor is evidently correct, the Council cannot stand idle in the matter. Would it not be better, if they cannot compel the properly holders to do what is necessary, to construct a temporary culvert at the expense of the Cor poration before it is too late?

THE ALLEGED WATCH ROBBERY .- William Smith, and Milbury Day, appeared on remand before the Police Magistrate yesterday morning, on a charge of being concerned in stealing a watch from the person of Patrick Miller, about New Year's Eve. Mr. Courtney appeared for the prosecution, and several additional witnesses were examined. Edward Phelps deposed that he was keeper of a public house on Johnson street, and that public noise on Johnson street, and that about the beginning of the year the prisoner, Day, called one evening about 6 o'clock, and asked him to lend him \$20 upon a gold watch, which he did. The prisoner told him that if a young man named Jeffray came and paid the money, he (witness) was to let him have the watch. Later in the evening Jeffray have the watch. Later in the evening Jeffray came, paid the money, and was handed the article. Witness had asked no questions in respect to the matter. Jeffray was then called, but did not appear in court. A party named Lamric, who had purchased the watch om Jeffray for the sum of \$40, was next examined. At the conclusion of his evidence the prisoners were remanded for one day.

BARK CONSTITUTION .- We stated in our edition of the 27th ult., that this vessel had made her quickest trip from the Sandwich Islands, and that it was the first voyage which her new commander, Capt. Wm. Roblearned that instead of the first, it was Capt Robinson's third voyage in command of the Constitution. The first trip he made from Port Angelos to Honolulu and back only occupied 42 days. The second was better still, taking just 39 days, and his trip here direct was done in an unprecedentedly short time. We make this regulatory most discovered. direct was done in an unprecedentedly short time. We make this rectification most cheer-fully, as Capt. Robinson is a most oblig-ing, energetic, and deservedly popular com-WILLIAMS CREEK .- A gentleman in ownt

has shown us a letter which he received from n most reliable person at Lillooet, in reference to the richness of this creek. The letter says This creek has turned out awful rich; there is upwards of half a million of gold there now. Nothing has ever been heard of so rich before. During the winter there was steady work for more men than was upon the creek, and at good wages. I should advise you all to start as soon as possible, as this will be a good year for miners, but a bad year for packers." We do not agree with the advice bendered to men to start immediately. It will be time enough for individuals to leave this place who have not claims, at least a month hence. ards of half a million of gold there

IMMERSION .- It is stated in the Puget Sound Herald that Mr. Thomas J. Winship, engineer of the U.S. revenue cutter Shubrick, had a very narrow escape there from drown ing lately. While in the act of going on bourd by the plank he slipped, and was pre-cipitated into the water between the vessel and the wharf. Having a heavy soldier's and the whari. Fixing a feety softeer of which covered his head and face in the water, he was almost helpless, and not until completely exhausted was he taken out. The danger was enhanced by the darkness; the accident happening before daylight.

DELUGE ENGINE COMPANY .- The new Engine House lately erected for the Deluge (No. 1) Company, is almost completed, and will be ready for occupation next week. The front elevation is very neat and appropriate, and the belfry which surmounts the building in excellent keeping with the rest of the design. The bell, procured from San Francisco by Mr. J. Drummond, the zealous foreman of the company, is now in position, and available. and available.

SWELLS IN THE POLICE FORCE .- We are informed that yesterday afternoon a strange scene was presented to the public on Yates street in the sight of a Police constable strug-gling in the mud with a drunken man, while a sergeant of the force stood coolly looking on. When we consider that Mr. Pemberton has denounced civilians on more than one occasion for not aiding the police in the execution of their duty, the anomaly we have reterred to appears very extraordi-

THE KENDALL MURDER CASE .- The Grand Jury of the Second Judicial District of Washington Territory at a recent term of the Court held in Olympia, found an indictment for manslanghter against young Howe, for the killing of Mr. B. F. Kendall, late editor of the Occiland Press. The Court has since ad-raitted Howe to stand out on bail till the Assizes take place in September next.

MARINE MAGISTRATE. -The Chronicle tries to wriggle out of its uncalled for attack or Capt. Pike, R. N., by alluding to the Mayor. But that dodge won't do. The public sec through it. Every such question should be dealt with onits merits; and when naval officers accept commissions of the peace whilst in our consting service, they deserve to be treated as gentlemen; not bullied when serving the Colony well and gratuitously.

forward their improvements. BRITISH COLUMBIA .- The steamer Enter prise arrived last night from New Westmin ster, which place she left at four o'clock in the afternoon. There were twenty-three pas sengers on board. The steamer Reliance

went up the river before the Enterprise Coal.-The citizens of Victoria will be pleased to see, by referring to Mr. Brodrick's advertisement in another column, that a considerable reduction has taken place in the

price of coal. EXPENSIVE LAVING .- It is stated in the American papers that the daily charge for board in the first class hotels in Atlanta in the South, is \$20, and the fare very poor

oyage to New Westminster, assaulted Capt. Mouat and would have roughly handled him but for the timely interference of Mr. Ells. the purser, and the steward. The row was occasioned by a passenger bringing a dog

nto the cabin, and when requested by the Captain to take the animal out, re fused to do so, and made use of threatening language if the Captain would attempt to remove the dog. The matter ended in scuffle, when the fellow, aided by a number of rowdies knocked the Capt, down and was in the act of using him badly, when the par-ties mentioned interfered and rescued him. The man who made the attack, summoned tion of the ravine nearly opposite the residence of Rev. Dr. Evans has, during the last two meetings, been discussed in the City Council. Notifying the said property holders sideration for men in unfortunate circumstances are too well known to require any comment from us. We are in hopes that there were no Cariboo miners engaged in the disgraceful conduct to which we have alluded. It would be well if in future steamers going to Naw Westenisters would leave early in the New Westminster would leave early in the day instead of after night, when men are gen-erally excited by the parting glass, which al-most always precedes their departure in the

> time since, for the information of the public, we quoted the Act for the Preservation of Game, to warn persons who were breaking the law, of the penalties they incurred by so doing, and we have since noticed that the prehibited kinds of meat are no longer exposed publicly for sale in the poultry shops. Our attention, however, has been attracted to the fact of the bills of fare in most of the principal hotels still including the wild duck and goose, venison, grouse, etc., which the customer can have by the plateful, as if the law has not the same weight with respect to the cooked article of food, as the raw material. We have been informed that the contraband of cassine is brought to the houses after dark by the hunters, and thus the trade is carried on in spite of the law. the trade is carried on in spite of the law. Now, as everyone is interested in the preservation of game in the Colony (for those who do not shoot like to enjoy the fruits of others' skill or industry) and the law a wise one, we think the matter deserves the attention of the police, as the issuing of a single taummons would suffice to check the practice. VICTORIA THEATRE.—The performance

> last evening was under the patronage and honored with the presence of His Excellency Governor Douglas, C. B. The Orrin family distinguished thomselves in their extraordinary feats, and called forth a storm of apand respectable on the occasion. In the ble, made the people laugh immoderately. Mad'lle Lameroux danced very gracefully, and sung several songs with considerable feet. The whole entertainment passed off very agreeably, and apparently to the satisfaction of the audience

THE NEWS BY THE ANDERSON .- By the arrival of the steamer Eliza Anderson we have Eastern news to the 18th ult., being one day later than received by the Brother Jonathan. There is not an item of war news of the slightest interest to report. An important treaty has been concluded between the Chippewn Indians of the Upper Mississippi and the U.S. Government, by which there has been conceded to the latter five reservations in Minnesota. The Acts of Congress in regard to enlistment for two years of all whose time will expire this summer is attracting considerable attention in

CUSTOM HOUSE SEIZURES .- We understand that on Wednesday last the U. S. Custom House officers from Bellingham Bay, W. T., vent over to Whatcom and seized 3000 lbs. of sugar deposited in an out-house in rear-of Mr. Richard's premises, also the whaleboat Black Engle, which it is said has not made a trip to Victoria since Christmas. It is alleged there was no evidence before the offi-cials of the goods referred to being contra-band, and the residents in that quarter are very indignant at the course pursued by the uthorities.

ANOTHER DEPALCATION .- We regret tate that another defalcation has occurred in official circles. The amount so far discovered is not very large-only \$600; but we presume that we shall hear the exact sum shortly, or whether there are other defici-We withhold the name for the present with the hope that the matter may be satisfactorily explained. If it is not so, everybody will learn it soon enough.

COURT OF REVISION .- Messis. Thomas Trounce, Alfred Fellows, and James Lowe, yesterday held an adjourned sitting as Revisors of the Assessment under the Trades
Licenses Act. A number of appeals were heard and the subjects adjusted. The Court adjourned until Monday next at 11 a. m.

FOR NEW WESTMINSTER. - The steamer Eliza Anderson sailed last night for New Westminster, having about forty passengers and a large freight on board.

The Municipal Loan.

We are indebted to the courtesy of the Mayor and the Town Clerk for copies of the following correspondence on this subject :

CITY COUNCIL CHAMBERS, VICTORIA, V. I., March 31st.
SIR:—1 am instructed by the Worshipful the Mayor, to inform you that the electors of the city of Victoria have declared in favor of the adoption of the By-law regulating the Trades Licenses for this city by a majority of 41, and at the same time I am desired to request you will be pleased to inform this Council, how, that the same has become law. whether such drafts as may be presented will be duly honored?

Your early attention to the matter will

I have, etc.,
ALGERNON AUSTIN,
Town Clerk.

Bank of British North America, March 31, 1863. Algernon Austen, Esq., City Clerk.

Algernon Austen, Esq., City Clerk.

Sir.—I have to acknowledge receipt of our letter of this date, enquiring if the drafts in our coasting service, they deserve to be treated as gentlemen; not bullied when serving the Colony well and gratuitously.

From Cowichan, —The sloop Louisa, regular packet to Cowichan, arrived from that dietrict yesterday evening. bringing six pasengers. She reports everything going on satisfactorily at the settlement, and that the coccupants of the land are vigorously pushing forward their improvements.

Algernon Austen, Esq., City Clerk.

Sir.—I have to acknowledge receipt of our letter of this date, enquiring if the drafts of the Council will be honored by this Bank when presented for payment. I have the pleasure to state for the information of His Worship the Mayor and Council, that any drafts issued for the purposes specified in the Act authorising the Council to raise a loan, will be duly honored on presentation; this nrrangement is made on the understanding that if a letter guaranteeing the repayment of the loan is obtained from the Government, that it will be lodged with the Bank.

I am, etc. I am, etc.
J. G. Shepherd,
Manager

The Alleged Bribery Case. [A CARD.] We the undersigned would respectfully

state in regard to a paragraph in this morning's Chronicle headed "The two canoe loads of Indian Whisky," that Mr. John Titcomb employed us as special watchmen to inform him if any liquors or other goods be put on board of any vessel bound for the North West coast of British Columbia; and that we were to receive between us the sum that we were to receive between us the sum of fifty dollars on the above occasion.

of fifty dollars on the above occasion.

No such shipment of goods having been discovered by us, after using due diligence, we consequently received no such extra pay.

Signed. John Mitchell,

CHARLER VICKERS. Victoria, March 31st, 1863.

EDITOR BRITISH COLONIST-SIR :- Permi party on board the Enterprise on her last ne through the medium of your columns to call attention to the systematic and strenuous manner in which the Town Council mani-fest its opposition to the improvement of Government street.

This street is our main—in fact, our only thoroughfare, at one end being the direct road to Lake Saanich and the Northern disrout to Lake saanied and the Northern dis-tricts, at the other leading to Fort street, Humboldt street and the whole of James' Bay. Yet, whilst we see other streets of far inferior importance selected for extensive and costly improvements, the north end of Government street is still allowed to remain

thority on such a subject, not the patient. Upon the former rests the responsibility of life or death, and no willingness on the part of the patient to run a risk, can justify the doctor in becoming the instrument in a hazard us experiment. There is competition among medical men, it is true, and it is possible that the less conscientions might ablain a mass of mud and mire, not a single thing having been done to improve it since the Let us take a brief review of the streets that have already been graded and macadamized. Commencing at the water, we have Wharf and Store streets, then Langley street, then—the north end of Government street between the st sible that the less conscientious might obtain patients by the use of an agent the effects of which are pleasing in the first instance. This success could not be permanent however. The careful, conscientious physician, who would refuse to do anything he knew to be dangerous would undoubtedly be benefitted in pocket in the long run, as well as by the satisfaction of having done his duty. As a rule-medical practitioners are not mercenary. Physicians probably confer more benefits without a return than any other class (except aditors) and cherish a pride in their profession, which prevents them prostituting it to sible that the less conscientious might obta ing purposely missed—comes Douglas street, which, at great expense has been made the outlet to the Saanich road, though Government street is by far the shortest cut. And last, though not least, Cook street, above all others is selected for improvement! Then, taking the streets that you east and west, we taking the streets that run east and west, w have Humboldt, Fort, Bastion, Yates, and lastly, Johnson street. address and cherrsh a price in their projec-sion, which prevents them prostituting it to unjustifiable money making. If they would combine to prevent the use of chloroform in cases where it is not advisable, they would not be called upon to regret so unfortunate an occurrence as the death of poor Hum-

lastly, Johnson street.

Now, Mr. Editor, let me ask, cun anyond in his senses compare the value of property at the top of Yales street, on Cook street or on Johnson street where recently macadization, with the of servering the beautiful to the control of the street where the st amized with that of property about the corner of Government street and Cormorant EVASION OF THE GAME LAW .- A short Why, it is well known that were Governmen why, it is well known that were dovernment street graded and macadamized, as justice demands it should be, the land would be im-mediately leased, and substantial busices premises erected. To my certain knowledge several brick buildings would immediately be commenced, were the street carried through : and the revenue derived from the property would soon reach a considerable

phreys."

tion so numerously and respectably signed that was presented on the subject, the conduct of the Town Council in disregarding the claims of so important a thoroughfar becomes still more extraordinary. Certainly never since the place was first colonized, has any petition born the names of so many o our most respected and influential citizens. The gentlemen who signed that document were amongst these who contribute most were amongst those who contribute mos largely to the revenue, and were, therefore justly entitled to expect that so reasonable request would receive better treatment at the hands of the Corporation. In conclusion I must express a hope that if

In conclusion I must express a nope that in the Conneil cannot be aroused from its apathy, the petitioners alluded to will take some steps in the matter, for the case is so flagrant and monstrous that it only requires decided and energetic action to force the Council to do what should have been done long ago. I am, Sir, &c., Justicia.

A Letter from Port Angelos.

has ever existed in London, whose profits never exceed a certain per centage—no matter, even if goods are bought fifty per cent under value, the advantage being given to the customer (the head of which at his decease was found to be worth more than twenty million of dollars, and from whom PORT ANGELOS, March 29, 1863. Editor British Colonist. — There othing new of any importance on this side of the water. But we expect lively times one of the company now residing in Victoria has received his general knowledge of business)—on these principles, which are simply—small profits and quick returns.—
Harly Gillard & Co., Hosiers, Glovers, Outfitters and Hatters, Government street, have here ere long, as soon as the lots are sold by the government. Numbers stand ready to build as soon as they can flet titles to the ground on which to build.

The sloops Brutus, and Mountain Buck—also thirty-nine barrels salt, three large-sized seins, a lot of alcohol, etc., having been con-demned by the United States Court for violation of the revenue laws, are advertised to be sold by the Marshal at the custom house on the 15th of April next. If any of your readers wish anything of the kind, here with readers wish anything of the kind, here will be a good opportunity to buy, as all the articles will undoubtedly go cheap. For any one wishing to engage in the salmon fishery, the salt and seins would be very desirable. The Congress of the United States at its late session, passed an Act for the erection of a light house at this point. It is expected that the work will be commenced as soon as the collector, Victor Smith, returns from Washington.

The Port Angelos Lyceum is prospering finely. The meetings are well attended and considerable interest is manifested in the lebates.

The bark Hyack, from San Francisco, arrived last Thursday with a cargo of cattle, etc., for new settlers just below the town. She was only nine days in making the trip from San Francisco to this port, but had no later news than that brought by the last steamer. Yours truly, Sol. E. GNATROSS.

Somenes District.

EDITOR BRITISH COLONIST, SIR :- One o r neighbors brought some cattle from Victoria to his farm at Somenos a few days ago, and was two days on the trip—the snow being two feet deep on the mountains.

Mr. Bell lost his finest cow in calf from Mr. Bell lost his finest cow in calf from falling in a deep pit, and the son of Mr. Alexander narrowly escaped drowning from the same cause. These pits are very dangerous, and in winter full of water, and it is hoped the authorities will immediately order them all to be filled up, and strict notice given to the Indians not to dig any more. It is a cruel and unmanly way of capturing deer. I have known the deer taken out of them dead from staysting on saveral organization. hem dead from starvation on several occa-

one of our churches is nearly completed.

well attended.

The trail is now complete from Victoria,
with the exception of the bridges across the
Rokesailah and Cowichan rivers; when they are finished you can ride your horse from Victoria to Naraimo, but it is impossible to Victoria to Againno, but it is impossion to accomplish the journey before the bridges are complete, and we hope the Government will not be wanting in the matter.

Yours, &c.,

A SETTLER.

"The use of Chloroform "

As we only gave a portion of the article from the Globe on this subject, which called forth a reply in a late issue, we consider it will be right to present our readers with Over Curtis & Moore's Drug Store. Entrance on Langley street.

"The fact so much insisted on by the witnesses at the inquest, that chloroform has been administered in hundreds of cases without any harm being done, seems to us of very small value when placed in juxta-pon with the circumstances of the presition with the circumstances of the present case. If the administration of drugs in hundreds of cases had been innocent on account of the skill of the administrators, and the few cases of injury had been marked by carelessaces or ignorance, we would readily agree that the use of chloroform should go on, with that the use of chorotom should go on, with due precautions for its proper application. But in the case of Humphreys there is not a shadow of suspicion of carelessnoss or igno-rance. The drug was administered by Dr. Bovell, whose kindness of heart is a guarantee for the moderation and carefulness of his practice, and whose skill and experience have placed him in the front rank of his profession. Drs. Hodder and Beaumont, who operated and had examined the man of his fitness to take chloroform with safety, are gentlemen of first class ability as surgeons and physicians. If these men had failed to discover that there was danger in administering chloroform to Humphreys, less noted practitioners may well question their fitness to decide upon the capacity of a patient to receive it. And the post mortem examination showed that there was no organic disease which might, unknown to the physicians, have made chloroform injurious to the sufferer. No examination, however minute, no observation of habits or life, could possibly have revealed the danger. practice, and whose skill and experience could possibly have revealed the danger. Humphreys was, in fact, just as well fitted by nature to receive chloroform as any of the thousands who have taken it unharmed; yet, novertheless, it so happened that nerves and brain were so affected by the drug, that he died, the minute offer it was administered.

died the minute after it was administered

Exchange News Room Exchange Tables FOR CONVERTING STEELING INTO Currency, and Currency into Sterling, at the Government rate of £1-\$4,85, are now ready and

The deduction we think undeniable, that chloroform is not a safe agent to employ, that it is absolutely noxious, that though it may be used hundreds of times without harm resulting, the administrator can never know that he is not about to inflict death can be obtained at
HIBBEN & CARSWELL'S STORE,
Yates street, Price 10 cents. mh19 upon his patient.

The practical lessen is evident. The use of chloroform for every trifling operation, the extraction of a tooth, or the removal of a tumor, cannot be justifiable if death may be the result. We presume that there are dan-TO COW KEEPERS AND OTHERS. THE GRAINS TO BE DISPOSED OF at the James Bay Brewery Apply at the Brewery behind Government Buildings. nes Bay Brewery Apply at the Brew overnment Buildings. Proprietor, A. J. WELCH.

gerous operations in which insensibility to pain, and to the nervous shock given by the pain, and it me hervous shock given by the use of the knife, may be of the greatest service, and it may be advisable in these cases to run the risk of apoplexy from chloroform. But these operations are very few, and in a vast majority of operations where it is now a complexed there is not the slightlest excess for IMPORTER AND DEALER IN Gentlemen's Furnishing Goods

employed, there is not the slightest excuse for the use of the drug. Nobody likes to suffer pain; everybody escapes it who can; and there is no doubt that the present general use of chloroform is the work of the patient and not of the physician. But it seems to us that it is the duty of the surgeon to refuse to ad-minister it. The medical advisor is the au-thority on such a subject not the patient.

Parely.

**P-Having bought a fine looking overcoat cheap, it is really mortifying (but by no means astonishing) to find that it is in a galloring consumption. Half the cloth in use is made of Shouldy, and in these days of progress, a trashy garment can be made to look quite as well, while in the store, as a good one. Before long, however, the victim of cheap chothing finds his coat becoming lighter and lighter, and the substance of the cloth accumulating in the corners and seams

cloath accumulating in the corners and seam between the material and the lining, instead

of being on his back. If you would avoid being fooled in this way, buy all your cloth-ing of Heuston, Hastinga & Co., Lick House, Montgomery street, San Francisco, for their whole stock is made of the best material.

EX GALVESTON,

I S composed entirely of healing gums, and vege table oils and herbs. It is perfectly safe for the most delicate to use. I can most sincerely say that I have never known any, however delicate to be injured by it in the least. I will continue to ask the afflicted, who have not used it, to try it for the following diseases. If they are not saffied with its healing properties, the money will be cheerfully refunded by the Agent where the medicine is for sale.

City of Victoria.

CENTLEMEN,—YOU WILL SHORTLY BE called upon to exercise the most sacred rights of Britons, in selecting men of your own free will to manage your own local affairs, scrutinize and correct the course of Government, and adjust and impose taxation. While I feel that I have no especial claims to public support, I do claim, in common with my fellow citizens, that I have a bright to aspire to a position of my past energies here; and that in a new country like this I have a right to aspire to a position in the mangement of its public affairs. I do not seek any office of emolument—I have never done so, nor is such my aim now. I am content to earn my living independent of Crown patronage; but the honor of representing my fellow citizens is a distinction which any man might be proud of, and I nspire to that. I hold the equal rights of all men to be of the first importance in all cases of legislation, and know no distinction of creed, color, or country. Every colonist who has settled in this Colony as his future home, is entitled to equal privileges with his neighbor, and for such principles I will always contend.

Heaven has given us a five climate, a good har-

with his neighbor, and for such principles I will always contend.

Heaven has given us a five climate, a good harbor, a natural position as the entrepot to a great part of Washington Territory and British Columbia; and in the present condition of American affairs so situated that with a First Porr and No Durr of any amount, we can supply a great share of the Pacific coast cheaper than they can possibly be supplied from clsewhere.

I am fully alive to the advantages we possess, and it is my anxious desire to forward our interests, particularly railroad and harbor enterprises; to watch and guard against corruption and misgovernment; to see that equal rights and cheap administration are preserved; that law costs and lawyers are looked after, without permitting to them exclusive privileges or business monopolies; that the merchant, tradesman, mechanic and artizan is protected and supported; land granted free, or at nominal rates to actual settlers, with a view to encourage that important interest; speculators and and inbores cheeked and frustrated, and that the

ominar rates to actual settlers, with a view to meourage that important interest; speculators and and jobbers checked and frustrated, and that the H-pervading rule of Governmentofficials, dubbling a mines, town sites and public lands, may be balished. in mines, town sites and public lands, may be abolished.

There are many other public questions of great importance upon which I will speak hereafter, as they cannot be referred to within the limits of this address, but if you see fit to honor me with your confidence and support, you may rely that for neither inducements of office or patronage, no printing or other jobs will pass without exposure. And should it not be your pleasure to elect me, I will support cheerfully whomsoever you think fit to elect, so long as they follow a line of policy similar to that I have here laid down.

I have the honer to be Gentlemen,

Your obedient servant,

EDWARD BEATTY EARLES.

Victoria, 6 March, 1863. mh6

THE WORLD'S FRIEND! Holloway's Ointment.

A Cure for Piles and Fistulas. Inflammation of sensitive parts, piles, fistules, and ach like painful discases may be presently rileved, and ultimately cured, by the proper and cliliquent use of this cooling and healing thintment, whose action hould, in such cases, be assisted by junctous doses if Pilis: ere many days have claysed the anxious patent will experience a wonderful degree of esse from the returnent. They are equally suitable to both exes, and all ages.

Coughs, Colds, and Asthma.

Coughs, Colds, and Asthma.
These complaints of the chest come on with slarm ing frequency. The Ointment should assiduously be rubbed at least twice a day on the characteristic and between the shoulders, when the violence of all symptoms will gradually give way, the breathing become longer, and the oppression less. No medicines are more efficient in cleest complaints, none can be used with equal safety and certainty. Both Fills and Ointment are accompanied by very clear and simple directions for using them. KEATING'S COUGH LOZENGES. AND ALL PULMONARY COMPLAINTS. TUDGED BY THE IMMENSE DE-MAND, this Universal Remedy now stands the first in public favor and confidence; this result has been acquired by the test of fifty years' experience. These Lozenges may be found on sale in every British Colony, and throughout India and China they have been highly esteemed wherever introduced. For COUOUS, ASTIMA, and all affections of the Throat and Chest, they are the most agreeable and efficacious remedy.

Copy of a letter from the late COLONEL HAWKER, (the well-known Author on Dr. W. W. WINTER, of Milledgeville, Ill., writes:

IIAWKER, (the well-known Author on Langs and Shooting.")

LONGPARISH HOUSE, near Whitchurch Inants
SIR:—I cannot resist informing you of the extraordinary effect I have experienced by taking only a few of your LOZENGES. I had a cough for several weeks that defied all that had been prescribed for me; and yet I got completely rid of it by taking about half a small box of your Lozenges, which I find are the only ones that relieve the cough without deranging the stomach or different cough the cou Mr. NATHAN PENNYPACKER, of Upper Uwchland, Chester Having been afflicted with ASTHMA and BRONCHITIS, and the treatment of several skillful physicians proving of no avail, I commenced the use of your EXPECTO-RAYT. After taking it for about three months I found myself entirely cured.

Mr. Reading Dory, of Twenty Mile Stand, Warren World. S. B.—To prevent spurious imitations, please to observe that the words "KEATING'S COUGH LOZENGES" are engraved on the Government Stamp of each Box.
